Central Female College.

The following is the report of the Board of Education of the Missouri Conference, adopted by the conference at its annual session at Chillicothe, Mo., September 12-17, 1888, regarding Central Female College:

This institution, under the presidency of W. F. Kerkdall, located in the city of Lexington, is now doing good work under most promising auspices. It is the child of the joint action of the three conferences in Missouri, and the curators rejoice to report increasing prosperity in all things pertaining to the college. The students of Lexington have been rallying to its support, and the sum of \$25,000 has been raised by the agent, Rev. L. P. Norford, for building purposes.

The agent and president have personally been to the board, and having presented the claims of this college before us, we earnestly endorse the enterprise of establishing a female college of first grade, and in view of the action of this conference at former sessions, we offer the following resolution:

That inasmuch as the people of Lexington have raised \$25,000 for Central Female College and complied with the requirements of the resolutions passed by this conference, we recommend that the conference meet all its pledges to said institution, and that it be authorized to raise the sum of \$10,000 in 1889 and 1890, and perfect all the arrangements contemplated thereby.

W. F. Kerkdall, Secretary.

A supplemental report of the board of curators of the Central Female College, Lexington, Mo., is hereby submitted to the conference. The board of curators of the college are also of the opinion that the college is doing good work under most promising auspices. It is the child of the joint action of the three conferences in Missouri, and the curators rejoice to report increasing prosperity in all things pertaining to the college. The students of Lexington have been rallying to its support, and the sum of \$25,000 has been raised by the agent, Rev. L. P. Norford, for building purposes.
